Career Objective

Passionate and detail-oriented B.Tech student specializing in Artificial Intelligence and Machine Learning with strong skills in Python, web development, and problem solving. Interested in building AI-powered applications and scalable software solutions while continuously improving Data Structures and Algorithms skills.

Education

B.Tech in Computer Science Engineering (AI & ML)

SR University, Warangal

2023 – 2027

CGPA:8.5

Achievement: B.Tech Second Year Top Performer

Technical Skills

Programming Languages: Python, JavaScript, SQL

Web Technologies: HTML, CSS, Flask

Core Concepts: Data Structures & Algorithms, Dynamic Programming Basics, OOPs, DBMS

Tools: Git, GitHub, VS Code

Projects

AI Resume Analyzer

- Built an AI-based resume analyzer using Python and Flask.
- Implemented resume parsing and skill extraction.

QR Code Generator Web Application

- Developed a QR code generator using HTML, CSS, JavaScript, and Flask.
- Enabled instant QR code generation and download.

EcoSort – Waste Segregation Web Application (Team Project)

- Worked as Frontend Developer for waste classification web app.
- Integrated image upload and responsive UI features.

Web Calculator

- Created a responsive calculator using HTML, CSS, and JavaScript.

Certifications & Training

1. AlgoUniversity, 2025 Graph Camp – Data Structures & Algorithms

- Learned graph algorithms including BFS and DFS
- Practiced algorithmic problem-solving techniques

2. Python Programming Certification

3. Project Management Certification

4. Web Development Fundamentals

5. AI/ML Fundamentals

Achievements & Activities

- B.Tech Second Year Top Performer
- Practicing coding problems on LeetCode and HackerRank
- Actively learning Data Structures and Algorithms
- Interested in AI, web development, and software engineering
- Participated in coding practice sessions and technical learning activities

Strengths

- Quick Learner
- Problem Solving
- Team Collaboration
- Adaptability
- Communication Skills
