Relevant Coursework:

Data Structures & Algorithms

Artificial Intelligence

Machine Learning

Database Management Systems

Web Development

Profile

Detail-oriented Computer Science student specializing in Artificial Intelligence and Machine Learning at SR University. Proficient in Python, JavaScript, and Data Structures & Algorithms with hands-on experience building AI tools and web applications. Passionate about solving real-world problems using technology and continuously learning new tools.

Experience

Virtual Internship – AI & Machine Learning

2025

1Stop.ai

- Completed virtual internship focused on Artificial Intelligence and Machine Learning concepts
 - Worked on practical tasks involving Python and JavaScript
 - Gained hands-on experience with AI tools and frameworks
- Graph Camp – Data Structures & Algorithms**
- Learned graph algorithms including BFS and DFS
 - Practiced algorithmic problem solving techniques

Projects

2025

AI DJ Maker

- Developed Python application for music automation
- Implemented audio processing features
- Improved automation and user interaction

2024

Web Calculator

- Built responsive calculator using HTML, CSS, and JavaScript
- Implemented arithmetic operations and UI logic

2025

LLM Based AI Projects

- AI Resume Analyzer
- AI Study Assistant for document summarization
- MCQ Generator for interview preparation
- Practiced Retrieval-Augmented Generation (RAG)
